Radix - an established world leader in the mobile computing market - presents the **FP400** portable printer. Designed to withstand demanding field conditions where temperature extremes, dirt, moisture and physical shock are the norm for today's front-line field worker. The **FP400** interfaces seamlessly with the Radix ultra-rugged mobile computers allowing field personnel to generate accurate receipts, invoices, tickets and other documentation where and when needed. Since all the Radix portable printers can operate via direct power or battery, they can be worn on a belt or shoulder strap, carried by hand or mounted in a vehicle to meet the varied needs of mobile workers.

Peripherals

Magnetic Card Reader / Smart Card Reader (FP400+ only)

The optional integrated magnetic card reader and/or smart card reader provides an all-in-one solution for various field data collection tasks such as scanning credit cards, driver's licenses' and identification badges.

Communications

The FP400 can be used serially or wirelessly. The wireless integrated IrDA and Bluetooth are standard and make it easy for mobile workforces to remain on the go. In addition, the Bluetooth or IrDA wireless communications between the printer and the handheld the Radix mobile computers eliminates the hassle of cables.

Carrying Cases

A variety of carrying cases is available to meet the needs of mobile workers. We offer belt and shoulder straps for your comfort and convenience whether you are riding in a vehicle or walking.

Accessories

We offer a number of accessories to make the FP400 easy to use anywhere. If your FP400 is mounted in a vehicle, you will find a vehicle charger and a 12-16V DC input vehicle adapter particularly helpful. In the office you can use a power adapter and also recharge batteries fast with the two-bay battery charger.

Specifications

Printing	Thermal dot line printing at 832 dots per line
Print Resolution	203 dpi (8 dots/mm)
Print Speed	2.76 in/sec (70 mm/sec)
Status Indicators	Power/communications, status/charging and ready/fault
Barcode Support	Codes 39, 128, 2 of 5, UPC-A, UPC-E, UPC/EAN-8, UPC/EAN-13, Codabar, PDF-417
Power	Field replaceable lithium-ion battery pack, 3 hour charge, up to 10 hours use
Communications	Serial, IrDA and Bluetooth®
Options	Magnetic card reader, smart card reader
Dimensions	6.5 x 7.5 x 2.75 in. (165 x 190 x 70 mm)
Weight	30 ounces (850g) with paper and battery pack
Environmental	3 feet (1 m) drop rating onto concrete
Humidity	Up to 90% relative humidity (non-condensing)
Operating Temperature	14°F to 122°F (-10°C to +50°C)
Storage Temperature	-4°F to +140°F (-20°C to +60°C)
Accessories	Carrying cases, belt loops and shoulder straps, vehicle chargers, two-bay battery charger
